

ALPINE® RSL 0W-30

High-performance low viscosity engine oil for passenger car engines of the latest technology with and without exhaust aftertreatment system

Properties

ALPINE RSL 0W-30 is a high-performance fueleconomy engine oil for petrol and diesel engines in passenger cars, with low sulphur, ash and phosphorus content (low SAP). Base oils of the latest technology and a completely new high-performance additive with lowered sulphate ash guarantee best wear protection and highest engine cleanliness. Excellent cold start behaviour ensures optimum lubrication reliability in the cold running phase. Extreme loads and high temperatures are safely mastered. **ALPINE RSL 0W-30** can be used under all operating conditions and contributes to the protection of the environment by reducing pollutant emissions.

Application notes

ALPINE RSL 0W-30 for modern car engines of the latest technology, especially with exhaust gas aftertreatment (DPF particle filter and CAT). Also suitable for cars with gas engines (CNG / LPG). **ALPINE RSL 0W-30** optimises the service life of exhaust gas purification systems and maintains their functionality. Engine oils of this performance category are recommended with extended oil change intervals.
