## WICHTIG!

D

### Vor Montagebeginn:

- Die aktuellen Herstellervorgaben beachten!
- Die Einbauanleitung komplett durchlesen und zwingend beachten!
- Dieses Produkt ist nur für linksgelenkte (LHD) Fahrzeuge geeignet!
- Bei Fremdverwendung oder Veränderung des Produktes erlischt jeglicher Anspruch auf Einbauunterstützung und Gewährleistung!

Änderungen bezüglich Konstruktion, Ausstattung, Farbe sowie Irrtum vorbehalten. Alle Angaben und Abbildungen sind unverbindlich. Der in Deutsch gehaltene Text in dieser Einbau-Anleitung ist bindend!

Für technische bzw. elektronische Änderungen, sowie Softwareupdates, welche nach erstmaliger Inbetriebnahme des Elektrosatzes vom Fahrzeughersteller durchgeführt werden und beispielsweise zu Fehlfunktionen der Anhängersteckdose oder deren Peripherie führen, übernehmen wir keinerlei Gewährleistung!

Je nach Art des im E-Satz verwendeten Anhängermoduls ist eine Interaktion mit dem Fahrzeugbordnetz nur eingeschränkt oder gar nicht möglich. Mit den spezifischen Diagnosesystemen der Fahrzeughersteller kann nicht auf modulinterne Fehlerspeicher zugegriffen werden.

Fehlerprotokolle in Bezug auf Anhängerbetrieb, die während eines Prüfprozesses mit den Diagnosesystemen der Fahrzeughersteller generiert werden, sind mitunter auf eine nicht ordnungsgemäße Freischaltung für Anhängerbetrieb zurückzuführen.

### Wir empfehlen

- die Auswertung der fahrzeugseitigen Fehlerspeicher sowie ggf. die Instandsetzung aller gelisteten Defekte vor Beginn aller Montagearbeiten!
- das Anhängermodul ggf. vom Leitungssatz zu trennen und den Diagnoseprozess noch einmal zu starten!
- die Fehlersuche bei Funktionsproblemen auf max. 0,5 Stunden zu begrenzen und sich danach an unsere Hotline zu wenden!

## IMPORTANT!

GB

### Before starting the installation:

- Pay attention to the latest manufacturer's specifications!
- Read the complete installation instructions and follow these at all costs!
- This product is only designed for left-hand drive (LHD) vehicles!
- If the product is used for a different purpose or modified, any entitlement to support during the installation and the warranty will be forfeited!

Subject to changes with respect to design, equipment, colour and error. All of the data and illustrations are without obligation. The German text in these installation instructions is binding!

We can assume no warranty or guarantee for technical and electrical modifications or software updates carried out by the vehicle manufacturer following the initial commissioning of the electric kit and which, for example, may lead to malfunctions in the trailer socket or its peripheral equipment!

Depending on the type of trailer module used in the electric kit, interaction with the vehicle's electrical system may be limited or even impossible. The error memory inside the module cannot be accessed with the specific diagnostic system of the vehicle manufacturer.

Error logs relating to the trailer mode that are generated during a test process with the vehicle manufacturer's diagnostic system are sometimes due to an incorrect activation for the trailer mode.

### We recommend

- an analysis of the vehicle's error memory and possibly the repair of all listed faults before the start of the installation!
- possibly disconnecting the trailer module from the lead set and re-starting the diagnosis process!
- limiting troubleshooting in the event of malfunctions to a max. of 0.5 hours and then contacting our hotline!

## IMPORTANT!

F

### Avant de commencer le montage:

- Respecter les consignes actuelles du constructeur!
- Lire la notice d'installation en entier et en tenir rigoureusement compte!
- Ce produit convient uniquement pour les véhicules avec conduite à gauche (LHD)!
- Tout autre usage ou modification du produit entraîne l'annulation de toute prétention à une assistance pour le montage ainsi qu'à la garantie!

Sous réserve de modifications sur le plan de la construction, de l'équipement, de la couleur ainsi que d'erreurs. Toutes les informations et illustrations sont fournies sans engagement. Le texte en allemand dans cette notice d'installation fait foi!

Nous déclinons toute responsabilité pour les modifications techniques ou électroniques, ainsi que pour les mises à jour logicielles réalisées après la mise en service initiale du kit électronique du constructeur du véhicule et pouvant provoquer par exemple des dysfonctionnements de la prise de courant de la remorque ou de sa périphérie!

Suivant le type de module de remorque utilisé dans le kit électronique, une interaction avec le réseau de bord du véhicule n'est pas possible ou ne l'est que dans certaines limites. Il est impossible d'accéder aux mémoires d'erreurs internes avec les systèmes de diagnostic spécifiques des constructeurs de véhicules.

Les procès-verbaux d'erreurs concernant le fonctionnement de la remorque qui ont été générés durant un processus de contrôle avec les systèmes de diagnostic des constructeurs de véhicules sont parfois attribuables à une activation non conforme pour le fonctionnement de la remorque.

### Nous recommandons

- d'analyser les mémoires d'erreurs du véhicule ainsi qu'éventuellement de réparer toutes les défaillances mentionnées avant le commencement de tous les travaux de montage!
- de séparer le module remorque le cas échéant du jeu de câbles et de remettre en marche encore une fois le processus de diagnostic!
- de limiter la recherche d'erreurs à 0,5 h maximum en cas de problèmes de fonctionnement et de s'adresser ensuite à notre hotline!

## IMPORTANTE!

Prima dell'inizio del montaggio:

- Si prega di osservare tassativamente le indicazioni attuali del costruttore!
- Leggere integralmente e attenersi alle istruzioni di montaggio!
- Questo prodotto è adatto solo a veicoli con la guida a sinistra (LHD)!
- In caso di utilizzo scorretto o modifica del prodotto, decade ogni diritto di supporto al montaggio e di garanzia!

Con riserva di modifiche strutturali, di dotazione, colore ed errori. Tutti i dati e le figure non sono vincolanti. Il testo in tedesco in queste istruzioni di montaggio è vincolante!

Non concediamo alcuna garanzia per modifiche tecniche o elettroniche, aggiornamenti software che dopo la prima messa in funzione del gruppo elettronico vengono effettuate dal costruttore del veicolo e, ad esempio, possono causare malfunzionamenti della presa del rimorchio o delle sue periferiche!

A seconda del tipo di modulo rimorchio utilizzato nel gruppo elettronico, l'interazione con la rete di bordo del veicolo è possibile solo parzialmente o non è affatto possibile. Con i sistemi di diagnosi specifici dei costruttori di veicoli, non è possibile accedere alla memoria errori interna al modulo.

I protocolli di errore riferiti al funzionamento con rimorchio, generati durante un processo di collaudo con i sistemi di diagnosi dei costruttori di veicoli, sono da ricondurre, tra l'altro, a un'attivazione non corretta per funzionamento con rimorchio.

**Consigliamo**

- di effettuare assolutamente l'analisi della memoria errori sul veicolo ed eventualmente la riparazione di tutti i difetti riscontrati, prima di iniziare qualsiasi lavoro di montaggio;
- di scollegare eventualmente il modulo rimorchio dalla serie di cavi e di avviare nuovamente il processo di diagnosi;
- di limitare la ricerca errori in caso di problemi di funzionamento a max. 0,5 ore, quindi di rivolgersi al nostro numero verde.

## ¡IMPORTANTE!

Antes de comenzar el montaje:

- ¡Observar las especificaciones actuales del fabricante!
- ¡Leer las instrucciones de montaje por completo y seguirlas sin falta!
- ¡Este producto solo es apto para vehículos con volante a la izquierda (LHD)!
- ¡El uso fuera de este ámbito o la modificación del producto supone la extinción de cualquier derecho de asistencia técnica para el montaje y garantía!

Queda reservado el derecho a realizar modificaciones constructivas, de equipamiento y color y de posibles errores. Todos los datos e ilustraciones se entienden sin compromiso. ¡La versión vinculante de estas instrucciones de montaje es la original en lengua alemana!

¡No asumiremos garantía alguna por modificaciones técnicas y/o electrónicas o actualizaciones de software que se lleven a cabo después de la primera puesta en servicio del kit eléctrico por parte del fabricante del vehículo y que puedan dar lugar, por ejemplo, a fallos de funcionamiento de la base eléctrica para el remolque o los periféricos!

En función del tipo de módulo para remolques CFC utilizado en el kit eléctrico no se podrá interactuar con el sistema eléctrico de a bordo o solo de forma limitada. Los sistemas de diagnóstico específicos de los fabricantes de vehículos no permiten el acceso a las memorias de fallos internas del módulo.

Los protocolos de fallos referidos al servicio con remolque, que se generen con sistemas de diagnóstico de los fabricantes de vehículos durante un proceso de inspección, a veces son el resultado de un desbloqueo incorrecto para el servicio con remolque.

**Recomendamos:**

- evaluar las memorias de fallos del vehículo y eliminar, en caso dado, todos los defectos enumerados antes de comenzar los trabajos de montaje!
- separar el módulo para remolques del juego de cables en caso dado y volver a iniciar el proceso de diagnóstico!
- limitar la búsqueda de fallos en caso de problemas de funcionamiento a un máximo de 0,5 horas y acudir entonces a nuestra línea de atención!

## BELANGRIJK!

Voordat u begint te monteren:

- Raadpleegt u eerst de actuele richtlijnen van de producent!
- Leest u de instructies voor de installatie helemaal door en volg de aanwijzingen nauwgezet op!
- Dit product is alleen geschikt voor voertuigen met een stuur aan de linkerkant!
- Wanneer het product wordt gewijzigd of niet op correcte wijze wordt gebruikt, vervallen alle garanties en alle rechten op ondersteuning bij de inbouw.

Aan deze informatie en afbeeldingen kunnen geen rechten worden ontleend. Wijzigingen voorbehouden ten aanzien van constructie, uitrusting, kleur en/of eventuele misrekening/vergingssing. De Duitstalige tekst van deze gebruiksaanwijzing is bindend!

Wij dragen geen enkele aansprakelijkheid voor technische en/of elektronische wijzigingen alsmede software-updates die worden verricht na de eerste inbedrijfstelling van de elektrische set door de autofabrikant en die bijvoorbeeld leiden tot fouten in het functioneren van de aanhangerstekkerdoos en/of de randapparatuur!

Afhankelijk van de soort aanhangermodule die in de elektrische set wordt gebruikt, kan de interactie met het voertuignetwerk beperkt of zelfs onmogelijk zijn. Met de specifieke diagnostische systemen van de autofabrikant is geen toegang mogelijk tot foutenlogboeken die zich in de module zelf bevinden.

Foutrapportages ten aanzien van de werking van de aanhanger, die kunnen worden gegenereerd tijdens testprocedures door het diagnostische systeem van de autofabrikant, zijn soms te herleiden tot een incorrecte aansluiting en/of activering van het aanhangersysteem.

**Wij raden u aan**

- de foutrapportages van uw voertuig te inspecteren, en de nodige reparaties te verrichten, voor aanvang van elk montagewerk!
- uw aanhangermodule indien nodig los te koppelen van de kabelset, waarna u de diagnoseprocedure opnieuw opstart!
- in geval van functionele problemen niet langer dan een half uur te zoeken naar een fout, maar contact op te nemen met onze hotline!

### Codierung VW/Audi/Seat/Skoda mit VCDS

#### Bitte beachten :

Der nachfolgend beschriebene Ablauf zur Codierung bzw. Freischaltung auf Anhängerbetrieb dient lediglich zur allgemeinen Orientierung und kann je nach Modell (Motorisierung/ Ausstattung) stark variieren. Gegebenenfalls müssen weniger oder noch weitere Steuergeräte angepasst werden.

- **Codierung Gateway\_19 (Diagnoseinterface)**  
Verbauliste ->  
69 Anhänger -> verbaut
- **Codierung EZE\_09 (Elektronisches Zentralelektrik-Steuergerät):**  
Zugriffsberechtigung: 31347  
Anpassung -10  
Anpassungskanal:  
Vernetzung  
Anhängeranschlussgerät -> verbaut  
Trailer Hitch Control Module -> verbaut
- **Codierung DIS\_13 (Distanzregelung)**  
Zugriffsberechtigung: 20103  
Codierung  
Control Module for Trailer -> verbaut
- **Codierung ZKS\_46 (Zentralmodul Komfortsystem)**  
Trailer control unit -> verbaut
- **Codierung SWA\_3C (Spurwechselassistent)**  
Trailer control unit -> verbaut
- **Codierung SCH\_17 (Schalttafeleinsatz)**  
Trailer control unit -> verbaut
- **Codierung RFK\_6C (Rückfahrkamerasystem)**  
Anhängererkennung -> verbaut
- **Codierung STF\_74 (Fahrwerkssteuerung)**  
Anhänger -> verbaut
- **Codierung EPH\_10 (Einparkhilfe Steuergerät)**  
Anhänger -> Anhängervorrichtung manuell abnehmbar
- **Codierung FFF\_A5 (Frontsensorik Steuergerät)**  
Anhängerelektronik -> verbaut
- **Codierung HDE\_6D (Heckdeckelelektronik Steuergerät)**  
Steuergerät für Anhänger -> verbaut

#### Wichtiger Hinweis zur Codierung bzw. Freischaltung auf Anhängerbetrieb.

Die vorab genannten Einstellungen werden im Bordnetz des Fahrzeuges vorgenommen und lokal abgespeichert. Bei generellen Updates der Fahrzeugsoftware (beispielsweise im Rahmen von Service- oder Instandsetzungsarbeiten), können diese Einstellungen unter Umständen wieder überschrieben und gelöscht werden. In diesem Fall muss die Freischaltung auf Anhängerbetrieb nach dem Update noch einmal lokal aktualisiert werden.

**GB**

### Encoding VW/Audi/Seat/Skoda with VCDS

#### Please note :

The procedure described below for encoding and enabling the trailer mode only serves for a general orientation and can vary greatly depending on the model (motorisation / equipment). If necessary, fewer or further control units will have to be adapted.

- **Encoding Gateway\_19**  
Installations List ->  
69 Trailer hitch control module -> installed
- **Encoding EZE\_09 (electronic central electric controller):**  
Access authorisation: 31347  
Adaptation -10  
Adaptation channel:  
networking trailer connection device -> installed  
Trailer hitch control module -> installed
- **Encoding DIS\_13 (distance control)**  
Access authorisation 20103  
Encoding  
Control module for trailer -> installed
- **Encoding ZKS\_46 (central module comfort system)**  
Trailer control unit -> installed
- **Encoding SWA\_3C (lane change assistant)**  
Trailer control unit -> installed
- **Encoding SCH\_17 (control panel insert)**  
Trailer control unit -> installed
- **Encoding RFK\_6C (reversing camera system)**  
Trailer detection -> installed
- **Encoding STF\_74 (chassis control)**  
Trailer -> installed
- **Encoding EPH\_10 (PDC controller)**  
Trailer -> Trailer device  
can be removed manually
- **Encoding FFF\_A5 (front sensor system controller)**  
Trailer electronics -> installed
- **Encoding HDE\_6D (boot lid electronics controller)**  
Controller for trailer -> installed

#### Important note on encoding and activating in trailer mode.

The aforementioned settings are carried out in the vehicle's electrical system and saved locally. During general updates for the vehicle software (for example, within the scope of service or repair work), the settings may be overwritten and deleted under certain circumstances. In this case, the trailer mode activation has to be updated again locally after the update.

### Codage VW/Audi/Seat/Skoda avec VCDS

#### Attention :

Le déroulement du codage et de l'activation du fonctionnement avec remorque décrit ci-après sert uniquement d'information générale et peut varier fortement d'un modèle à l'autre (motorisation / équipement). Le cas échéant, il faudra ajuster moins ou au contraire plus d'appareils de commande.

- **Codage Gateway\_19**  
Installations List ->  
69 Trailer hitch control module -> monté
- **Codage EZE\_09 (appareil de commande électronique de la centrale électrique):**  
Autorisation d'accès: 31347  
Ajustement -10  
Canal d'ajustement:  
mise en réseau de l'appareil de connexion de la remorque montée  
Trailer Hitch Control Module -> monté
- **Codage DIS\_13 (réglage de la distance)**  
Autorisation d'accès 20103  
Codage  
Control Modul for Trailer -> monté
- **Codage ZKS\_46 (module central système confort)**  
Trailer control unit -> monté
- **Codage SWA\_3C (assistant de changement de file)**  
Trailer control unit -> monté
- **Codage SCH\_17 (porte-instruments)**  
Trailer control unit -> monté
- **Codage RFK\_6C (système de caméra de marche arrière)**  
Identification de la remorque -> montée
- **Codage STF\_74 (commande du châssis)**  
Remorque -> montée
- **Codage EPH\_10 (appareil de commande aide au stationnement)**  
Remorque -> Dispositif de remorque démontable à la main
- **Codage FFF\_A5 (appareil de commande capteurs avant)**  
Électronique de la remorque -> montée
- **Codage HDE\_6D (appareil de commande de l'électronique du hayon)**  
Appareil de commande pour débutants -> monté

#### Remarque importante sur le codage et l'activation du fonctionnement avec remorque.

Les réglages mentionnés ci-dessus sont effectués dans le réseau de bord du véhicule et sauvegardés localement. Pour les mises à jour générales du logiciel du véhicule (par exemple dans le cadre de travaux d'entretien ou de réparation), ces réglages peuvent dans certains cas être écrasés et supprimés. Dans ce cas, l'activation du fonctionnement avec remorque doit être encore une fois actualisée localement après la.
