## SERVICE INFO

# SAC Driven plate alignment

### Alignment of driven plate on BMW applications

Manufacturer : BMW

Models: Various

Part Numbers : Various

For current listings refer to parts catalogue.

The majority of BMW applications are fitted with an SAC or Self Adjusting Clutch. These are supplied with a locking piece to prevent de-adjustment during transit. Therefore the driven plate must be aligned prior to fitting the cover assembly.

The locking piece **MUST NOT BE REMOVED** prior to fitment.

To align the driven plate a centring tool must be used. These are supplied as part of the LuK SAC fitting tool kit 400 0237 10

- For accurate model information please see the Schaeffler online catalogue
