

intAct Traktion-Power Deepcycle

Lead-acid battery | reinforced grid plates | filled and charged

Art.No.

T875-LP

Volt	8V
Capacity	145 AH (c5), 170 AH (c20)
CCR -18°C (EN)	k.A. A (EN)
Electrolyte	diluted sulphuric acid
Electrolyte density	1,28 +/- 0,01 Kg/l (25° C)
Size (LxWxH)	261 x 181 x 276 mm
Weight	31,4 kg
Pos. of Terminal	1
Terminal	1
Base plate	-

Usage

More working hours, more flexibility

The robust battery for many deep discharges and flexible charging. Perfect as a power supplier for small vehicles in the commercial and leisure sector that should have little downtime. Our recommendation for much longer-lasting grid plate batteries in special sizes.

- » **Very high life expectancy.** 600 cycles according to IEC 254-1 for medium to heavy cyclic use.
- » Available as **wet battery**. Closed and low maintenance.
- » **6 and 8 volt versions.**
- » Proven technology for **medium power** applications.
- » **Reinforced grid plates** with higher performance active material **for greater reliability.**
